OVER 100 YEARS OF HERITAGE

- 1900's** THE CO-OP MOVEMENT
The building of a new place in Clonsilla, bringing some historical buildings under the brand name 'The Hub'. Local farmers began purchase in range of farm products.
- 1960's - 1970's** NEW REFINEMENTS IN CLOMSILLA
The Clonsilla branch first opened as a local store, under the brand name 'South-Eastern Farmers Co-op'.
- 1969** NEW REFINEMENTS IN CLOMSILLA
The Clonsilla branch first opened as a local store, under the brand name 'South-Eastern Farmers Co-op'.
- 1981** THE FIRST STAFF
The first staff member, Fresh Milk, was 1981. Today, an leader in Ireland.
- 1994** EXPANSION
The building of a new place in Clonsilla, bringing some historical buildings under the brand name 'The Hub'. Local farmers began purchase in range of farm products.
- 2012** PROGRESS
Clonsilla ingredients were born, with a range of exciting opportunities ahead.
- 2017** CLANS
July 2017, Clonsilla was established as a and nutrition business shared ownership Clonsilla Co-op.
- 2021** THE VISION
Historic Clonsilla Co-op delivered a rebranding in honour of grasping the opportunity to become a full members of Clonsilla Co-op.
- CLOMSILLA ADVANCES**
A significant redesign of the area that offers a new look. With Tirlán Co-op on the 1st December.

GRANTS & SUPPORTS

The Targeted Agricultural Modernisation Scheme (TAMS) aims to provide farmers with grant aid which assists in the building and/or improvement of farm buildings and equipment. The scheme is jointly funded by European Union and the National Exchequer under the Rural Development Programme. The funding for the scheme is limited and all applications are subject to approval based on a strict selection criteria.

The TAMS budget is divided into tranches which are each about 3 months, but can be longer at the departments discretion. There is also a fast-track option which a farmer, who can prove the time critical nature of the purchase, can avail of. Applications are made online once a tranche opens and they are assessed after the closing tranche date. It is important to note that the scheme awards grants based on predetermined product prices, not on the actual purchase value.

Farmers who reach the grant aid ceiling are no longer eligible to apply for the TAMS 3 Scheme operated by the Department under the 2023 – 2025 Rural Development Programme. There are two scheme exceptions which have their own ring-fenced ceilings and these include: Low Emission Slurry Spreading Scheme (LESSS) and Solar Capital Investment Scheme (SCIS).

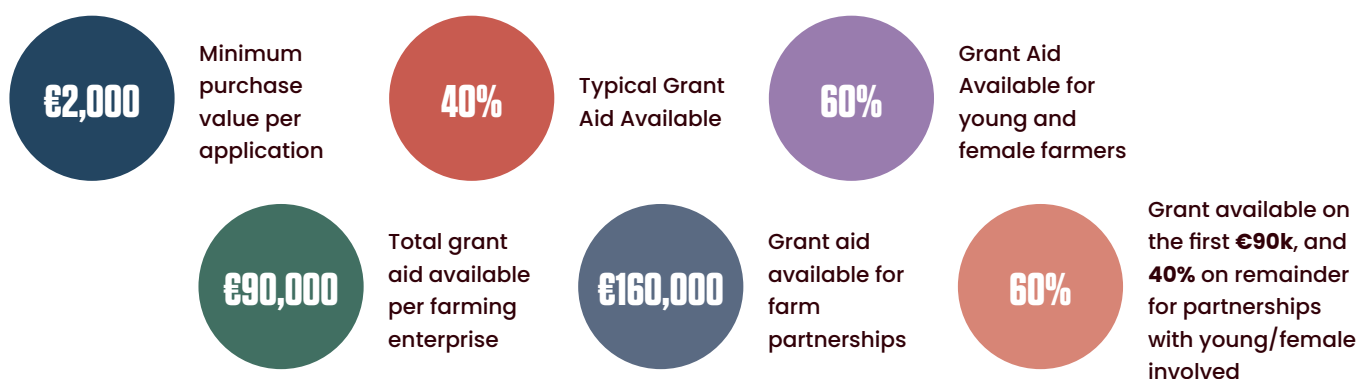

SCHEME DETAILS:

Scheme	Details	Product Examples	Grant Available
Animal Welfare & Nutrient Storage Scheme	Assists in farm modernisation by improving the storage of animal excreta, soiled water and other farm manures, along with providing facilities to improve animal welfare.	<ul style="list-style-type: none"> Animal Housing equipment Slurry stores Rainwater harvesting tanks Water meters Water pumps Collars 	<p>40% grant aid available up to a max. of €90,000. Farm partnership eligibility up to €160,000.</p> <p>Farmers who reach the ceiling under this scheme are not eligible to apply for other schemes, with the exception of LESS and Solar schemes.</p>
Dairy Equipment Scheme	Supports farmers investment in milk production.	<ul style="list-style-type: none"> Bulk milk tanks, Robotic milkers Milk recording equipment Water Heaters PTO Generators 	<p>40% grant aid available up to a max. of €90,000. Farm partnership eligibility up to €160,000.</p> <p>Farmers who reach the ceiling under this scheme are not eligible to apply for other schemes, with the exception of LESS and Solar schemes.</p>
Farm Safety Capital Investment Scheme	Supports farmers in their endeavour to improve farm safety.	<ul style="list-style-type: none"> Calf dehorning crates Protective fencing around slurry tanks Roller doors Calving pen, bull pen, and cattle crush improvements Calving gate in existing house 	<p>40% grant aid available up to a max. of €90,000. Farm partnership eligibility up to €160,000.</p> <p>Farmers who reach the ceiling under this scheme are not eligible to apply for other schemes, with the exception of LESS and Solar schemes.</p>
Low Emission Slurry Spreading	Supports the purchase of new specialist equipment for the spreading of slurry. LESS is an important environmentally sustainable technology.	<ul style="list-style-type: none"> Mobile slurry tank with trailing shoe or shallow injection attachment. Umbilical system with trailing shoe or shallow injection attachment. Hydraulic motor to substitute PTO shaft. 	<p>60% grant aid available up to a max. of €40,000 or €60,000 for a farm partnership. Use of this scheme does not impact grant aid availability in other schemes.</p>

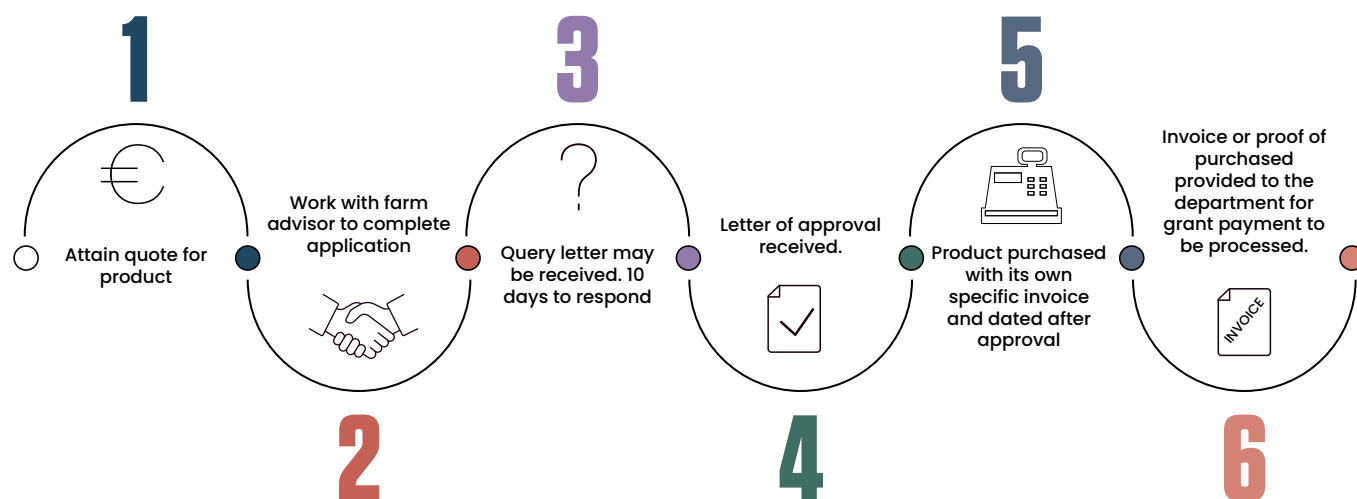

Scheme	Details	Product Examples	Grant Available
Organic Capital Investment Scheme	Supports organic farmers to invest in facilities and equipment.	<ul style="list-style-type: none"> Mealbins Fencing Slurry storage Sheds Front loaders 	40% grant aid available for licensed organic operators and 60% for farmers who are also current participants of the Organic Farming Scheme, up to maximum investment ceiling of €90,000 or €160,000 for a farm partnership.
Pig & Poultry Investment Scheme	Assists farmers in the upgrade of pig and poultry units. Along with facilitating energy efficiency upgrades.	<ul style="list-style-type: none"> Housing energy efficiency upgrades Drinker systems Feed mixing systems Water meters 	40% grant aid up to a max of €500,000 (includes €90,000 ceiling available in the other TAMS schemes). Note: no additional ceiling available for farm partnerships.
Solar Capital Investment Scheme	Encourages the use of renewable energies on farm; this scheme provides funding for the installation of solar PV panels.	FarmGen: www.farmgen.ie	60% grant aid available up to a maximum of €90,000. Availing of this scheme does not impact the ceiling on other schemes.
Tillage Capital Investment Scheme	Facilitates the tillage sector in making farm improvements that yield efficiency and environmental benefits.	<ul style="list-style-type: none"> Grain bin Rainwater harvesting equipment GPS machinery and sprayers Grain treatment equipment 	40% grant aid available up to a max. of €90,000. Farm partnership eligibility up to €160,000. Farmers who reach the ceiling under this scheme are not eligible to apply for other schemes, with the exception of LESS and Solar schemes.
Women Farmer Investment Scheme	Incentivises female farmers by providing increased support for capital investments.	<ul style="list-style-type: none"> Animal Housing equipment Meal bins Slurry stores Generators Rainwater harvesting tanks Water meters Water pumps Collars 	60% grant aid up to a maximum of €90,000. Farm partnership eligibility up to €160,000. Farmers who reach the ceiling under this scheme are not eligible to apply for other schemes, with the exception of LESS and Solar schemes.
Young Farmer Investment Scheme	Provides support for farmer aged 18 – 41 years (on date of submission) for upgrading agricultural buildings and equipment. Farmer must have set-up within the last 5 years to qualify.	<ul style="list-style-type: none"> Animal Housing equipment Meal bins Slurry stores Generators Rainwater harvesting tanks Water meters Water pumps Collars 	60% grant aid up to a maximum of €90,000. Farm partnership eligibility up to €160,000. Farmers who reach the ceiling under this scheme are not eligible to apply for other schemes, with the exception of LESS and Solar schemes.

A more detailed description of the scheme, including products eligible, their required specifications and costs allowable, can be found [here on the Department of Agriculture, Food and Marine website.](#)

TAMS IN NUMBERS:

HOW TO APPLY

The Water European Innovation Partnership (Water EIP) project is part of the European Innovation Agriculture (EIP-Agri) projects which are locally led initiatives that tackle issues affecting natural resources, such as water, in an innovative way.

The Water EIP specifically aims to deliver targeted actions to reduce losses of nutrients, sediment and pesticides from agricultural lands. The project focuses on areas needing the most attention to protect water quality and will run from 2023 to 2028. Access to this €60 million fund is prioritised and farmers are approached to make applications. Farmers within certain areas will be invited to participate by farm advisors or agents working on behalf of the project. These farmers will work with their ASSAP Advisor to implement additional measures to enhance water quality on farm.

Measures that are eligible for funding include:

- Hedgerow establishment
- Additional fencing for bovine exclusion from water bodies
- Alternative Water Supply – Pasture Pump/ Solar Pump/Water Trough
- Riparian Buffer Zones
- Tree planting
- Small Scale Ponds
- Earthen bund
- Sediment Traps
- Watercourse crossing/bridges
- Gateway relocation
- Multi Species Swards
- Pesticide mitigation measures

It is important to note that measures available for the EIP are for measures not mandatory to meet the farms regulatory requirements.

TRADING BONUS SCHEME

Tirlán's 2024 Trading Bonus Scheme rewards farmer Co-op members for their purchases made from Tirlán and its subsidiaries throughout the year. For milk suppliers, a Trading Bonus of 0.25cpl will be paid on all milk from members where they have spent over 8 cpl on input purchases with Tirlán in 2024. For grain growers, a Trading Bonus of up to €10 per tonne of grain supplied is available for 2024 for those trading over €60 per tonne. All 2024 agri-input related purchases made from Tirlán are included in the calculations for dairy and tillage supplier members.

Beef and sheep farmer customers of Tirlán that are Co-op members but not suppliers also qualify for a Feed Bonus on their tonnes purchased this year.

See full calculations below, and it is also worth noting that the applicable trading bonus will be paid in February 2025.

Table 1: 2024 Milk Supplier Trading Bonus*

Level of trade with Tirlán (cpl)	Trading Bonus (cpl)	Trading Bonus* (€) for 550,000 litre supplier
>8cpl	0.25	€1,444 (Incl VAT)

*VAT flat rate addition will be paid on milk supplied by non-VAT registered farmers who have confirmed their non-VAT registered status in writing to Tirlán at the rate applicable at the time of payment.

Table 2: 2024 Grain Supplier Trading Bonus**

Level of trade with Tirlán (€ per tonne)	Trading Bonus (€ per tonne)	Grain Trading Bonus (€ per tonne) including VAT**
>€60	€10	€10.50
€50 - €60	€7.50	€7.88
€40 - €50	€5	€5.25

**VAT flat rate addition will be paid on grain supplied by non-VAT registered farmers who have confirmed their non-VAT registered status in writing to Tirlán at the rate applicable at the time of payment. The example above is based on the current rate of 5.0%.

Feed Bonus

Beef and sheep farmer customers of Tirlán that are Co-op Members will also qualify for a Feed Bonus on their tonnes produced this year.

- For non-milk suppliers, the 2024 Feed Trading Bonus will be €10 per tonne of Beef, Dairy and Sheep Feed products purchased from Tirlán;
- For non-milk suppliers, the 2024 Feed Trading Bonus will be €3 per tonne for straights.

Farmer Members can log into their My Account to view their individual Trading Bonus Scheme details.

SUSTAINABILITY ACTION PAYMENT

The Sustainability Action Payment, which is available to all Tirlán milk suppliers, supports the delivery of key on farm sustainability actions. This payment aims to put in place a support and measurement which will enhance the on-farm economic and environmental performance. All suppliers who declare at least 7 sustainability actions on their TirlanFarmLife.com account each year, will receive the 0.5 cent per litre Sustainability Action Payment the following year.

Under the 18 actions available to a farmer, there are two which fall under the farm equipment product range and can be purchased through Tirlán FarmLife. These include:

- Low emissions slurry spreading
- Fencing off water courses

FUNDEQUIP

FundEquip is a low-cost term loan designed to assist dairy farmers in acquiring specific equipment, including generators, calf feeders, milk cooling equipment, feed bins, bulk tanks, solar panels, Sensehub livestock monitoring equipment and LESS Equipment (low emission slurry spreading).

- Loan amounts from €3,000 to a maximum of €75,000
- Loan terms of either 3 years or 5 years
- Seasonal payments (April - November) inclusive to suit milk production
- Repayment is deducted from monthly milk receipt

Farmers can make enquiries about FundEquip by visiting the Finance Ireland website [here](#) and filling out an enquiry form.

TRACTOR EQUIPMENT

GRASS TECHNOLOGY LOW EMISSION SLURRY SPREADER

With splash plates soon to be a thing of the past, low emission spreaders are a vital investment for any farmer spreading slurry; with the added bonus of LESS TAMS grant available.

Wide range of product features available on these Slurry Spreaders from Grass Technology, including chassis mounted dribble bars and trailing shoes which come in 7.5m or 10m options, built to last as long as a tanker. Fully galvanised booms are laser cut, which are incredibly light without compromising on strength. All spreaders feature the Alrena macerator by Bomech, with 12 self-sharpening blades for superior performance. Retro fits available on any tanker.

Tanker can be collected, fitted with the spreader and returned to the farm yard.

[CLICK HERE TO REGISTER YOUR INTEREST](#)

GRASS TECHNOLOGY SLURRY TANKERS

Grass Technology slurry tanks range from a 1600 Gallon single axle tanker to a 4500 Gallon tandem axle. With a wide range of premium features included, such as full commercial axle, full moulded chassis, 4 fill points, anti-roll butterfly baffle, waltersheid PTO shaft +more, you get everything you need in a tanker as standard. Optional extras that can be considered include custom paint, galvanisation and air brakes.

WWW.TIRLANFARMLIFE.COM

AGRIONAL SPRAYER 1000L WITH 12M BOOM

The Agrional Sprayer 1000L with 12m boom is versatile and compliant crop sprayer designed for agricultural use.

Frame is galvanized for durability.

Adaptable for liquid fertilizer with a change of nozzles which allows farmers to use the equipment for various types of agricultural applications, offering flexibility in crop management

Tank is constructed from reinforced polyethylene, enhancing its resistance to leaks. It features a self-filler which simplifies the process of filling the tank.

The sprayer is equipped with a diaphragm pump, anti-drip nozzle and both a chemical rinse tank and clean water hand wash tank.

9125760

FLEMING HYDRAULIC DOUBLE BALE TRANSPORTER

A comprehensive solution for efficiently handling and transporting bales on the farm.

Safely transport and store bales on their side. This design is intended to protect the bale wrap.

Can be mounted on the front and rear of a tractor, carrying up to 4 bales.

The handler has large diameter 90mm splayed carrier pipes with domed ends which ensures the bales remain securely in place.

Accommodates various bale types and is equipped with bale protection bars.

9125867

SILAGE PUSHER

The Silage Pusher is designed to make managing silage distribution more effective.

The pusher is attach to a standard tractor's tyre.

Crafted for durability with a robust frame built to withstand the rigours of daily farm.

Allows for pushing silage effortlessly, saving time and energy.

9125000

TR3 SINGLE BALE HANDLER

A specialized agricultural attachment designed for tractor loaders.

Slim over-arm design that makes it easy for loading and unloading bales.

Patented over-arm is a unique design that allows it to grip a bale at any angle. This design increases manoeuvrability, especially when operating in confined spaces.

Check valve ensures that a consistent grip is maintained on the bale at all times, ensuring safe transportation and minimizing damage.

Two large rotating rollers, which are essential for handling bales without risking damage to the plastic wrap.

9129326

FOX BROTHERS ROLL OVER YARDSCRAPER FOR TRACTOR

Designed for efficient cleaning of yards.

Equipped with a three-point linkage, allowing it to connect directly to a tractor for stability and efficient use of tractor power for effective scraping.

Roll-over design for forward and reverse motion.

Splayed sides to enhance the efficiency of the scraper by allowing it to gather a greater volume of material during each pass.

Rubber construction allowing for closer access to walls.

The scraper has a large surface area.

The scraper is designed to gather a large volume of material quickly.

9002301

FLEMING WAGTAIL FERTILISER SPREADER 800L

Spreads granulated fertilizers in a versatile and cost-effective way in farms.

Durable glass-fibre reinforced hopper resistant to rust and deterioration.

Variable spreading width from 6m to 12m for precise application.

Compatible with other spreader makes and offers optional hydraulic shut-off.

9125850

FLEMING LAND ROLLER HEAVY DUTY 8FT

Heavy-duty and versatile designed for effective field rolling.

8ft width making it suitable for a variety of field applications and the weight gives effective rolling.

Scraper blade keeps the drum clean during operation.

Comes with a trailed hitch and three-point linkage.

Features hardwood bearings and a 50mm steel shaft.

Can be filled with water to add extra weight.

Designed to be towed behind tractors only.

9125863

FLEMING SUPERFLOAT GRASS TOPPER 8FT

Aids in maintaining various types of landscapes.

Double float system to maintain an even cutting height.

Floating top link and spring-assisted body floatation provides bi-lateral movement for constant ground contact and an even cut.

Counter rotation of twin rotor

Adjustable cutting height from 50mm to 200mm.

Hydraulic conversion to transport position.

9134213

FLEMING TINE GRAB

Also known as the general-purpose grab, is robust and versatile, offering power, reliability, and adaptability for efficient material handling across various applications.

Adaptable across different machinery, providing convenience and flexibility.

Equipped with two hydraulic cylinders which offers powerful gripping action while maintaining low horsepower requirement.

Optimized Ram Clearance.

An 890mm opening makes it suitable for handling substantial loads with ease and efficiency.

Available in 4ft or 6ft.

9125860

FLEMING QUAD SPREADER

Heavy duty UV protected plastic hopper.

Spinner and vanes made from stainless steel for longer life.

4 adjustable spreading vanes.

Rigid axle and gearbox.

9125865

FLEMING FRONT LOADER BUCKET

Reinforced bracing on internal back wall for extra support.

Reinforced floor and hardox nose blade for scraping.

Design allows for a clear tipping mechanism when empty at high levels.

9125857

FLEMING LAND LEVELLER 8FT

Fitted with 4 x 80mm blades.

Double jaw lift arm support.

3 forward facing blades.

1 reversed blade for leaving a smooth finish.

Heavy duty rigid frame.

No moving parts and no maintenance required.

9131757

FARMGEN - FARM GENERATED RENEWABLE ENERGY

FarmGen is a bespoke renewable solar energy solution. This technology can help farmers grow their business sustainably into the future, while improving energy efficiency on farm and reducing bills. Following rooftop installation, FarmGen's Solar PV system will help power energy intensive processes on farm, reducing the costs of milk cooling, vacuum pumps and water heating. Combined these three processes account for around 80% of total milk parlour energy consumption.

This solar power solution is open to all farming sectors and sizes, with customised commercial packages available and importantly there are also options available for those who wish to install Solar PV in their homes to harness the power of green energy

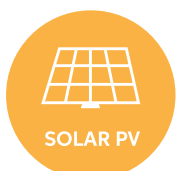

Key highlights of the FarmGen Solar PV Bundle:

Solar PV: Solar PV panels will enable cost efficiency, reducing energy bills and powering farms.

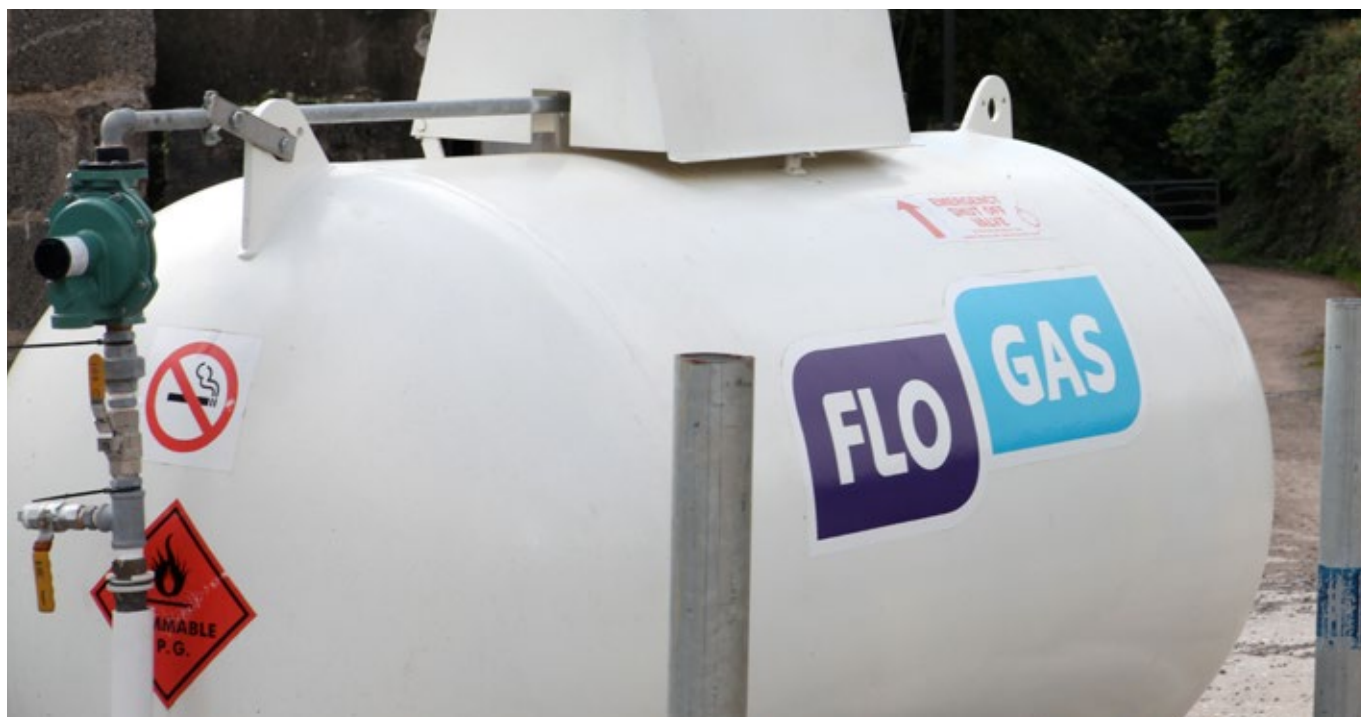

Huawei Smart Monitoring App: Smart monitoring will enable farmers to better understand their energy consumption in real time.

Fully Funded Solution: Farmers can avail of funding solutions available at competitively priced rates.

Enhanced Farm Sustainability: FarmGen supports on-farm goals to reduce carbon emissions. It is a Tirlán 'Sustainability Action Payment' approved initiative.

FLOGAS

Flogas is a cost efficient , on demand hot water solution for dairy farms. Flogas LPG instant hot water system provides on-demand hot water up to 85°C and will eliminate hot water storage costs on your dairy farm. Wherever you are, our LPG hot water system will enable you to effectively clean milk lines and bulk milk tanks.

Can be used for:

- » Bulk tank washing
- » Cleaning calf feeding equipment
- » Genreal dairy cleaning
- » Ideal for mixing milk replacer

Key Benefits of Flogas Instant Hot Water:

On demand hot water from 37°C to 85°C, will aid in the reduction of both TBC and Thermoduric counts. Ideal for use with chlorine free detergents where higher temperatures are required.

Reduced running cost, when compared to electricity. Offer available of a two-year fixed price LPG cost 12 C/KW v night rate @ 24 C/KW. Reliable and secure source of hot water.

LPG is a clean and innovative energy source, 50% lower CO2 emissions V electricity. Delivering on Tirlán's Living Proof Ambitions.

CONDON CALF DEHORNING CRATE DELUXE

Allows the calf to be dehorned safely by confining the animal in an immobile position.

Ratchet push-up anti backing bar and ratchet belly band to prevent animal from moving.

Nose band and spring-loaded head locking Bar to secure the calf's head.

Wheels allow the crate to be moved easily.

Quick release front door is a safety feature, providing a fast and easy way to open the crate.

9091056

SPILLANE CONCRETE FOOTBATH

Designed for the management of hoof disorders and lameness in animals providing a solution for easily disinfecting and cleaning the hooves of lame animal.

Durable and resilient.

Grooved floor provides grip for the animal as they walk through.

Equipped with drainage bung and the grooved floor slightly slopes to facilitate quick and efficient drainage.

Side walls of the footbath are higher and 125mm thicker for to strength.

Lifting loops are provided to assist in placing the footbath in a convenient spot on the farm.

Please Note: Gate and side rails sold separately.

9112649

CONDON GALVANISED MEAL BIN 8 TONNE

A versatile storage solution for feed or meal.

Adjustable legs provided height flexibility.

Multiple filling options. The bin can be filled using twin blowing pipes or from the top using a loader.

Pallet fork attachments allows the bin to be moved easily.

Sight glass allows the level of feed or meal inside the bin to be assessed without the need to open it.

9094212

JFC CHEMICAL STORAGE CABINET

A secure storage cabinet for safe-guarding potentially dangerous chemicals.

Free standing unit, ready to use and comes with a lock and key.

Shelves are fitted with an internal perforated rust-proof shelf and they have a maximum load capacity of 125kg.

Three compartments that contain two aluminium shelves.

Model: SC-03 60L Storage unit that meets farm inspection requirements.

Dimensions: 915 x 540 x 435 mm.

9089925

CONDON HOOF PAIRING CRATE

Versatile and effective tool for ensuring proper hoof care in cattle.

Easily moveable.

Semi-auto gate & side gates allowing operator to safely close the gate from the rear of the animal.

Includes height-adjustable W bar, belly band, hand operated winch, wooden blocks and side gates.

Designed for safe & efficient hoof trimming and to reduce the risk for the operator.

9095401

JFC CUBIC METRE MEAL BIN

Lightweight and hygienic bin for both transporting and storing up to 750kg of feed.

Large volume of 1 Cubic Metre or 1,000 litres.

Bale handler grooves at the base for lifting and transporting.

Low profile for ease of access when filling or emptying.

Perfect solution for storing meal on the farm.

Can be sited in close proximity to the feeding location in the field or yard.

9067114

SUPER CALF HUTCH

Provides sustainable and efficient housing for up to 8 calves.

Easy to clean and disinfect.

Strong, durable and weather resistant.

Adjustable roof vents and rear vent for air circulation.

2 lifting hooks on roof for easy transport.

9002662

SILAGE FEED TRAILER

Galvanised.

Feeding Height 2ft.

Tailgate hinges open.

Sloped sides allows access to all of the silage.

Treated timber slightly spaced for drainage.
